Fordoun Launches New Website

Fordoun is proud to announce the launch of its new website. With the majority of our bookings coming in via the website and the huge amount of traffic it gets we decided to make some major adjustments. The two key factors for us were looks and functionality. We feel like it ticks both these boxes, however any feedback would be greatly appreciated as it is the public that need to appreciate it.

"We can travel a long way and do many different things, but our deepest happiness is not born from accumulating new experiences. It is born from letting go of what is unnecessary, and knowing ourselves to be always at home. True happiness may not be at all far away, but it requires a radical change of view as to where to find it."

Sharon Salzberg, Loving Kindness.
